GRADE POINT AVERAGE: A retention/graduation grade point average is computed by multiplying the grade points earned in each course by the semester hours of that course, adding the points for each course and dividing the total by the total hours attempted, excluding any approved repeated or reprieved courses. Repeated courses are calculated by using the second grade earned, up to 18 hours for a maximum of 4 courses, where the student previously earned a "D" or "F". A course may be repeated only one time. A cumulative GPA is calculated using all regularly graded course work attempted.

The grades "P", "NP", "AW" and "W" are disregarded in computing the GPA. "I" grades given prior to Fall 93 are calculated as "F" in the grade point average; beginning Fall 93 an "I" is not used in the GPA calculation. Grades with the # (not applicable) will count in the GPA calculation but not toward completed hours for graduation. "WF" grades were given prior to Fall 93; beginning Fall 93, withdrew failing is recorded as "F.". Both are calculated in the grade point average. Reprieved semester courses are not calculated in the grade point average or toward completed hours.

GPA calculation formulas adopted Fall 1995.

Began awarding CERTIFICATES OF COMPLETION Spring 2013. This is not equivalent to a Bachelor's or Master's degree.
